Estimated Yield

The Estimated Yield (EY) in the preceding section compares the anticipated earnings on your investments in the coming year to the current price of the investments. It is based on past interest and dividend payments made by the securities held in your account. Changes in the price of a security over time or in the amount of the investment held in your account will cause the EY to vary. The EY is only an estimate and cannot be guaranteed by Edward Jones or the issuers of the securities. Your actual yield may be higher or lower than the estimated amounts. Estimates for any securities that have a return of principal or capital gain may be overstated. Income cannot be estimated for any securities that do not have an annual payment amount or frequency available at the time of estimation. Yield to Maturity is typically reported for Zero Coupon Bonds as these securities do not have an annual payment.

*Your Rate of Return for each individual asset above is as of December 31, 2024. Returns greater than 12 months are annualized.

Your Rate of Return in the Asset Details section above measures the investment performance of each of your individual assets. It incorporates the timing of your additions and withdrawals and reflects commissions and fees paid. Reviewing your Rate of Return is important to help ensure you're on track to achieving your financial goals.

The performance of your investments is tracked since they have been held in the current account, but no earlier than Jan. 1, 2009. Certain events, including a transfer of an investment between accounts, share class conversion, or change in an investment's identification code (CUSIP) caused by a corporate action, will impact the time frame over which the investment's rate of return is calculated.

Information used to calculate performance may have been obtained from third parties and Edward Jones cannot guarantee the accuracy of such information.
