YOUR ACCOUNT STATEMENT

James Boyd
1125 59th St. NW
Bradenton, FL 34209

Statement Period 10/01/2025 to 12/31/2025

**Boyd Insurance & Investment Services, Inc. 401(k)
Profit Sha**

ACCOUNT SUMMARY

	<i>This Period</i> 10/01/2025 to 12/31/2025	<i>Plan Year to Date</i> 01/01/2025 to 12/31/2025
Beginning Balance	\$1,713,358.27	\$1,455,732.36
Your Contributions	\$6,460.00	\$29,716.00
Safe Harbor Match	\$1,800.00	\$8,280.00
Transfers	\$0.00	\$0.00
Withdrawals	\$0.00	\$0.00
Expenses	\$-1,669.36	\$-6,147.55
Gain/Loss	\$22,981.51	\$255,349.61
Ending Balance	\$1,742,930.42	\$1,742,930.42
Ending Vested Balance	\$1,742,930.42	\$1,742,930.42
Your Rate of Return	1.34%	17.36%

YOUR RETIREMENT READINESS METER

Your Current Account Balance: \$1,742,930.42

Your Current Age: 69

If you want this much each year in retirement	You'll need this much when you retire	Your current account balance is projected to be worth this much when you retire	Your Retirement Savings Gap
\$25,000	\$399,569	\$2,214,374	No Gap! Way to go.
\$50,000	\$799,138	\$2,214,374	No Gap! Way to go.
\$75,000	\$1,198,708	\$2,214,374	No Gap! Way to go.
\$100,000	\$1,598,277	\$2,214,374	No Gap! Way to go.

To close your gap, you'll need to contribute this amount each month
until retirement.....

If you want this much each year in retirement.....

These calculations assume: (a) a retirement spanning ages 73 to 93, (b) a 6% average annual return during your working years, and (c) a 4% annual return during your retirement years.

IMPORTANT MESSAGES

To help achieve long-term retirement security, you should give careful consideration to the benefits of a well-balanced and diversified investment portfolio. Spreading your assets among different types of investments can help you achieve a favorable rate of return, while minimizing your overall risk of losing money. This is because market or other economic conditions that cause one category of assets, or one particular security, to perform very well often cause another asset category, or another particular security, to perform poorly. If you invest more than 20% of your retirement savings in any one company or industry, your savings may not be properly diversified. Although diversification is not a guarantee against loss, it is an effective strategy to help you manage investment risk. In deciding how to invest your retirement savings, you should take into account all of your assets, including any retirement savings outside of the Plan. No single approach is right for everyone because, among other factors, individuals have different financial goals, different time horizons for meeting their goals, and different tolerances for risk. It is also important to review periodically your investment portfolio, your investment objectives, and the investment options under the Plan to help ensure that your retirement savings will meet your retirement goals. Fund details by contribution source (e.g. employee deferrals, employer contributions, etc.) are available online at www.myplanconnection.com. If your Plan account includes holdings in a Self-Directed Brokerage Account, holdings details are available from your brokerage statement. For more information on investing and account diversification, please visit the Department of Labor's website at www.dol.gov/ebsa/investing.html.

Please review the information contained in this statement. Notify BlueStar Retirement Services in writing within 30 days if you think any of the data is incorrect. BlueStar Retirement Services is not responsible for losses that arise if you do not contact us in a timely manner.

Data regarding self-directed brokerage accounts is reflected as of the most recent date such data was received from the self-directed brokerage account custodian. Please consult your self-directed brokerage account statement.

For information on plan imposed restrictions or limitations on investment direction and Social Security integration (if applicable), see your Plan Highlights. To review your Plan Highlights, login to your account via www.myplanconnection.com, and select "Enrollment Toolbox".

Federal law allows you to contribute up to \$24,500 into your retirement savings plan in 2026 on a pre-tax or Roth basis. If you are 50 or more years of age, you can also contribute an additional "catch-up" contribution of \$8,000, for a total contribution of \$32,500.

Rate of Return Calculation: Period Rate of Return = (Ending Balance - Beginning Balance - Total Cash Flow for Period)/(Beginning Balance + Time Weighted Cash Flow for Period), where Time Weighted Cash Flow = Individual Cash Flow*(# Days Invested/Total Days in Period); For purposes of this calculation, "Beginning Balance" and "Ending Balance" do not include amounts held in a self-directed brokerage account. Rates of return are not calculated if the beginning balance for the period is \$0.00.

* Includes expenses.

** Please read each investment option's prospectus and consider the objectives, risks, charges, and expenses of the investment option carefully before investing. Please be aware that several investment options have implemented policies to discourage short-term trading and market timing. These policies include assessing short-term redemption fees on sale transactions. To access prospectuses, fund family internet links, and trading fee information, login to your account via MyPlanConnection.com, select "Investment Profiles", and click the "View Prospectus" icon listed with each investment option.

Performance data shown is historical and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. An investment in mutual funds is subject to market risk and an investor may experience loss of principal. Because the value of your investment will fluctuate with market conditions, you should consider your ability to continue to invest during periods of low price levels. Regular investing does not guarantee a profit or protect against a loss in a declining market.
