Important Notice

Earlier this year, Nationwide was honored to be re-selected as a Deferred Compensation Plan Investment Provider by the State of Florida Deferred Compensation Plan. A series of enhancements and modifications were detailed in communications distributed earlier in the year, including improved fee transparency and competitive Fixed Account Fund rates of return.

As a reminder:

- The fees that are assessed to your account are now clearly featured as an Explicit Fee (an asset management charge); an explicit asset fee allows us to be transparent and clearly share how account fees are assessed
- This Explicit Fee is assessed on every dollar of Plan assets including those in Fixed Accounts, Target Date Funds, Mutual Funds and Self-Directed Brokerage
- Through the end of 2022, the current 3.50% return on assets held in the Fixed Account Fund will be maintained
- Over the course of the 5-year contract between the State of Florida Deferred Compensation Plan and Nationwide, an average annual 5.0% guaranteed rate of return will be in effect; this approach accommodates market fluctuations while also generating the most competitive guaranteed rate of return possible
- Competitive minimum rates of return for the Fixed Account Fund that could be assessed for 2022 - 2023 are as follows:
 - Fourth Quarter 2022: 3.50% (October - December 2022)
 - 2023: 3.20% (January - December 2023)

We encourage you to compare this rate of return with other firms whom you might do business with and contact us if you have any questions.

Disclosures

Fee disclosures

The Standardized Deviation represents performance based on a \$10,000 investment of investment, and reflects the deduction of the following fees:

Under expense ratios represent the fund's total operating expenses expressed as a percentage of the assets held in the fund. For more information about gross expense ratios, read the fund's prospectus.

Some mutual funds may impose a short-term load fee. Some funds may be subject to a trade restriction policy. Please read the underlying prospectus carefully.

Footnotes

In these funds are designed to provide diversification and asset allocation across several types of investments and asset classes, primarily by investing in underlying funds. Therefore, in addition to the fund's expenses, you are indirectly paying the proportionate share of the applicable fees and expenses of the underlying funds.

Risk disclosures

Government Money Market Funds: The Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund is made to all investors. Although the Fund seeks to preserve the value of the investment at \$1.00 per share, it cannot guarantee it will do so. You could lose money by investing in the Fund. The Fund may impose a fee upon sale of shares or temporarily suspend the ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. The Fund's adviser has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time. The Fund may invest in shares of other government money market funds, including those advised by the Fund's adviser, to provide additional liquidity or to achieve higher yields. Please refer to the most recent prospectus for a more detailed description of the Fund's principal risks.

International/emerging markets funds: Funds that invest in international stocks also risk that funds investing only in U.S. stocks do not. Currency fluctuations, political risk, differences in accounting standards and the limited availability of information may make these funds less stable.

Small company funds: Small and emerging companies may have less history than larger, established companies. Therefore, funds investing in shares of small or emerging companies may face greater price volatility and risk.

High-yield bond funds: Funds that invest in high-yield securities may have more credit risk and changes in price than funds that invest in higher-quality securities.

Non-diversified funds: Funds that invest in a single industry or small number of securities may be more volatile than those that invest more broadly.

Government bond funds: These funds invest mainly in securities of the U.S. government and its agencies; however, these securities do not guarantee the value of the funds.

Real estate funds: Funds that invest mainly in real estate are sensitive to economic and business cycles, changing demographic patterns and government actions.

Important disclosures

"Inception Date" is the date the fund was established. The "Since Inception" column contains performance for the funds if the Inception Date was during the time period indicated.

Performance numbers in the "3 Month" column are not annualized returns and represent the total percentage change in share value for the time period indicated.
